

APPLYING LOGIC AND REASON TO THE CURRENT PREVAILING INSANITY ACROSS THE WORLD CAUSED BY "CORONA VIRUS:"

My mother who always tells me (as do many others who know me!) that I argue a point to death and don't change my view.... well maybe it is because I don't have a TV and don't read main stream media and not only formulate my own view, but when the evidence requires me to change my view I do so.... as happened here where a week ago I said wearing a masks was a waste of time to protect oneself and today believe we should wear them when we risk exposing others as no one knows if they have the "virus".

Mommy feels I finally have found the words to offer a simple understandable argument and therefore I present them to you for your consideration as true power lies within each of us, and that power is accepting the highest truth - those who had the knowledge to make swords, or guns or bombs etc.. could exert their advantage until the technology became available to all..... With the internet the spread of knowledge is the printing press on steroids and we will quickly get through the growing pains of "fake" everything and apply logic and reason in our search for truth.

Present me with good arguments that my logic and reason are wrong please so the highest truth can spread by leaving supported rebuttals to point in the comments :)

NO ONE CAN PROVE AUTHORITY TO KNOWINGLY CAUSE ANOTHER HARM.

What can we individually do to minimise the known risks to others without knowing if we are "infected"?

WE ARE ALL POTENTIAL CARRIERS AND COUGH EVEN WHEN HEALTHY SO WE MUST MINIMIZE THE RISK OF US INFECTING OTHERS- THAT IS OUR OBLIGATION TO ONE ANOTHER WHEN GOING TO PUBLIC PLACES!

WE KNOW "TRANSMISSION" IS AIRBORNE SO THE SOURCE OF SPREADING IS COUGHING - Taking responsibility of your obligations to fellow humans!

1 - It is irresponsible and not fair on the rest of the public if you go out with flu like symptoms (temperature, cough sore throat, breathing difficulties)

a - Don't unnecessarily increase the risk of infecting other this flu season - call your doctor for current procedures.

b - By simply going to your doctor or hospital you may be unnecessarily increase the transmission rate which puts additional strain on already scarce resources to help those in need!

2 - When to wear a mask.

So whenever you **have to** go out wear a mask as you might be infected and try keep 1.5m to 2m away from others and

DISPOSE OF SAFELY

Microwaves radiation kill life - so before disposing of your mask simply microwave it for a minute or 2 (possible link to newly switched on 5G mobile networks in Wuhan, Iran, Italy and the Diamond Princess)

3 - Washing hands more frequently than normal.

APPLYING LOGIC AND REASON TO THE CURRENT PREVAILING INSANITY ACROSS THE WORLD CAUSED BY "CORONA VIRUS:"

a - Leaving the second known transmission method of without a mask catching droplets containing the virus **if you are infected** of transmission by the droplets settling on surfaces that may be touched by others.

b - Unconsciously every day we countless times wipe our faces!

c - We reduce our risk of being infected in this manner by touching a contaminated surface and bringing that to our airway by.....

d - Sanitisers are useless as they may kill the infected host cell, but still leave the virus particles (which are dead in any case) but are what enters the next host cell which is why we should more frequently wash our hands with soap and water.

4 - By taking the simple measures I outlined which we all can take, this will help flatten the "curve" more effectively than what is being done now where no one really has any idea of who is a carrier or not.

Isolation is useless when you go buy your food, work (how is essential defined?) etc.....

UNLESS the whole community (family, village, town, county, country, world) isolate at the same time and open up any travel restrictions between communities who similarly have isolated

BECAUSE symptoms are evident within 2 weeks (with exception of outlying case which in any event would flatten the curve),

ISOLATION means no new exposure risk should be introduced into the isolated group thereafter - so unless we all do it at the same time it is no more effective than taking the simple steps I have laid out.

SUMMARY OF MY ANALYSIS:

1a - DEALS WITH CHANGES OF OUR BODIES ENVIRONMENT WHICH ARE THREEFOLD:

- the stuff we put into our bodies; food we eat (proper diet) and air we breathe (pollution) OR

- our cells may be compromised by radiation (Vaccines, 5G or other EM radiation), OR

- a combination of the two.

The conclusion is "normal flu" virus would cause more harm without needing to be a "mutation", thereby supporting both propositions at 2 of Darwinism and Catastrophism, and

Follow the money... this option is based upon Bechamp's HOST THEORY and the solution is in strengthening our immune system which means proper food, clean environment and restricted safety tested "wireless technologies" through safe practices that don't cause harm polluting both our food, water and air.

APPLYING LOGIC AND REASON TO THE CURRENT PREVAILING INSANITY ACROSS THE WORLD CAUSED BY "CORONA VIRUS:"

This would result in less "monopoly power" of money, by holding those with privileges granted by those that govern which will reduce the massive misdistribution of social profit, **thereby making people more important than money.**

1b - MUTATIONS OF THE VIRUS:

- this requires either or both of the propositions at 2 (Incremental evolution and catastrophism) to be true and

Follow the money... Those privileged to profit from "monopoly power" of money through privileges granted to the few by those that govern without "safety testing" and liability as the private sector is not required to fully insure the public for harm. Further by not being obliged to applying the best available knowledge for humanity this results in the massive misdistribution of social profit, thereby **making money more important than people.** Of special relevance is patents of natural genes (making claims on another's invention) and vaccinations where the manufacturers hold no liability, and by pushing more vaccinations have an endless growing profit stream.

DISCUSSION:

There are only three possible causes for the current corona "pandemic / epidemic";

ENVIRONMENTAL CHANGES TO OUR BODY:

1 - a weakened defence (immune) system resulting from environmental changes:

Two competing theories prevail:

Sources:

<https://duckduckgo.com/?q=bechamp+host+theory&atb=v47-1&ia=web> for many links on this debate

a - Bechamp's HOST THEORY which is difficult to commercialise for privilege of few, eat healthy unpoisoned nutritious food and breathe in unpolluted air

For those who are happy to have their beliefs challenged you might also find this enlightening which makes sense if you understand the difference between HOST and GERM theories

And for a serious but humorous additional immunity strengthening program from 2011...

as opposed to

APPLYING LOGIC AND REASON TO THE CURRENT PREVAILING INSANITY ACROSS THE WORLD CAUSED BY "CORONA VIRUS:"

b - Pasteur's GERM THEORY which can be effectively commercialised for privileges granted to the few licensed to produce vaccines WITHOUT LIABILITY to anyone harmed.

2 - a virulent mutation of one of the 600+ known strains of corona "flu" virus

Sources:

last paragraph above "A direct path to humans" is this year's addition of another 400 to the already who know how many flu viruses! THEREBY CREATING ENDLESS GUARANTEED RETURNS FOR THE PHARMA INDUSTRY FOR DECADES TO COME WHICH WILL BE SUPERCHARGED WITH MANDATORY VACCINATIONS!

Two competing theories prevail:

a - Darwins evolutionary theory of incremental adaption by mutations (supporting 1b "GERM THEORY") over extremely long periods of time, which he himself dissented as there was insufficient evidence in the fossil record to provide the many "missing link", especially in respect humans where we still have not found them, as opposed to

b - Catastrophism where environmental impacts (and it is settled science various types of radiation changes DNA and this is used in many medical therapies thereby supporting 1a "HOST THEORY") cause rapid mutations which compliments Darwins evolutionary theory and fills the problems of "the missing links" in the fossil records!!!

3 - a combination of both!

WHAT ELSE DO WE KNOW?

1 - The Chinese have said recovery is much better with supplementary Vit C and D, so increase your intake of Vit C and D .

2- The below video further supports the HOST THEORY. with Vit A being critical in the strengthening of cell walls, and a weak cell wall allows easier penetration for the virus's RNA to enter the cell which it needs to replicate, and explains why those with certain preconditions are more susceptible including sugar, Vit C and Vit D

3 - After years of not looking after your body supports the higher death rate of the elderly - support for host theory.

4 - Rest allows your body to direct its energy to repair itself which is why people are put into beds (even at hospital!) - support for the host theory

a - to fight infections takes energy hence fever / raised temperature.

APPLYING LOGIC AND REASON TO THE CURRENT PREVAILING INSANITY
ACROSS THE WORLD CAUSED BY "CORONA VIRUS:"

I HAVE FOUND NOTHING WHICH SUPPORTS THE GERM THEORY - so why risk exposing yourself to vaccination, and especially with this one as over 600 varieties of corona virus are known to exist ADMITTED NOT TO BE INCLUDED IN THIS YEARS FLU SHOTS!!!

1 - No science is done to check vaccines for safety (they are simply certified based on manufacturers claims)

2 - It is settled by admission that there is no science showing they even work to! (CDC uses three networks to **estimate vaccine effectiveness**: the [U.S. Flu VE Network](#), the [Hospitalized Adult Influenza Vaccine Effectiveness Network \(HAIVEN\)](#), and the [New Vaccine Surveillance Network \(NVSN\)](#).)
<https://www.cdc.gov/flu/vaccines-work/effectiveness-studies.htm>

3 - They merely "guess" which strains might occur in the upcoming season and "The seasonal influenza (flu) vaccine is designed to protect against the three or four influenza viruses research indicates are most likely to spread and cause illness among people during the upcoming flu season."

Which even just with the known corona virus numbers of 600 means they have **3/600 (0.5%) to 4/600 (0.67%)** chance of even picking the next years "flu virus" correctly!!
<https://www.cdc.gov/flu/prevent/vaccine-selection.htm> - first paragraph so it is not even like they don't shove it in your face!!!

4 - With those sort of odds it begs the question of what is the point of risking the openly stated common side effects from the flu shot include (which all happen to be the same as the flu which is what it is meant to protect you against!):

- Soreness, redness, and/or swelling from the shot
- Headache
- Fever
- Nausea
- Muscle aches

AND Signs of a severe allergic reaction can include:

- Difficulty breathing
- Hoarseness or wheezing
- Swelling around the eyes or lips
- Hives
- Paleness
- Weakness
- A fast heart beat or dizziness

Life threatening allergic reactions to the flu shot are rare

SO AT LEAST AGAIN THEY ARE OPEN AND HONEST ABOUT IT!!!

<https://www.cdc.gov/flu/prevent/general.htm>

4 - Yet claims of 40 to 60 reductions of doctors visits are made..... "During seasons when the flu vaccine viruses are similar to circulating flu viruses, flu vaccine has been shown to reduce the risk of having to go to the doctor with flu by [40 percent to 60 percent](#)."

<https://www.cdc.gov/flu/vaccines-work/vaccineeffect.htm>

5 - And don't even expect one to be available any time soon as "It takes at least six months to produce large quantities of influenza vaccine."
