**8) AS CLAIMANT OF THE RIGHT TO ENFORCE, I PUT YOU TO STRICT PROOF OF THE

- a) **BY THE ADMISSION** of the UK Cabinet Office, House of Commons, House of Lords, Department of Health and Social Care and Public Health England, and hence it is settled so there is no dispute, that they hold no records (evidence), thereby confirming:
- i) SARS-CoV2 has no unique RNA, and
 - ii) SARS-CoV-2 has never been isolated in the normal understanding of 'isolation',
 - iii) nor by the scientific gold standard of causation (Koch's Postulates), and
 - iv) SARS-CoV2 does not cause COVID-19, and
 - v) COVID-19 causes no previously unknown harm.
- (FOI admissions can be downloaded [here](https://www.dropbox.com/s/geu6rctmo5j5wy0/FOIs.pdf?dl=0): <https://www.dropbox.com/s/geu6rctmo5j5wy0/FOIs.pdf?dl=0>)
- b) **Further**, the Cabinet Office has admitted, and hence it is settled so there is no dispute, they merely acted upon an, to date, **undeclared source of advice** that: ***"Coronavirus Disease, or Covid-19, is caused by a new virus called SARS-CoV-2."*** [page 13 of the FOI's]
- c) **Further**, House of Lords admitted, and hence it is settled so there is no dispute, they merely assumed: ***"Evidence submitted to the inquiry starts from the premise (which so far as we know is uncontested) that the SARS-COV-2 virus causes the COVID-19 illness"*** [page 35 of FOI's]
- d) **BY YOUR IRRATIONAL BELIEF**: to the perceived problem summarised from SCHEDULE 1: figure 1, giving the following balance of probabilities:
- i) **PRECAUTIONARY PRINCIPLE** = Each only has the equal probability of being true or false = 50%, and cumulative probabilities are shown in square brackets in bold, using what Pasteur believed at the time to determine:
 - (1) **The balance of probabilities** show a probability of it being true is **0.39%**, and
 - ii) **HM government's own admissions** shows a probability of it being true is **0%**.
 - iii) **THE SCIENTIFIC RISK ANALYSIS** based upon:
 - (1) **Lessons learned from the science in 1918/9**: probability of it being true is **0%**.

(2) Lessons learned from science upto end 2019: probability of it being true is **0%**.

(3) Lessons learned from science since COVID-19: probability of it being true is **0%**.

e) **BY YOUR DISPROPORTIONAL REACTION** to the perceived problem summarised from Schedule 1:

i) **Proportionality: actual harm to a reasonable person;** The harm caused only by COVID-19 as at 30/11/2020 in England and Wales as a % of the total death is below 1% of normal deaths.. Therefore is statistically insignificant, and to implement any public intervention is irrational!

ii) **Proportionality: Vitamin D;** Extensive studies show vitamin D deficiency has been found present in 80% of cases , it is cheap, it is a lifestyle choice and should be the only non pharmaceutical interventions ("NPI") as it is neither reasonable, nor proportionate, and

(1) **no one can lawfully benefit from their own cause of action!**

iii) **Proportionality: comorbidities;** These are largely self inflicted, and that makes it solely the responsibility of the individual.

(1) In any event, the non pharmaceutical interventions do not tackle these problems and hence are unreasonable, and unlawful, and

(2) **no one can lawfully benefit from their own cause of action!**

iv) **Proportionality: old age;** Figure 2 shows average remaining life years, favouring the elderly, and for 11% of Covid-19 related death to save 7.52% of the most vulnerable remaining life years cannot be reasonably supported on any logical or moral grounds.

(1) **Further unproven non pharmaceutical interventions do not even address this question, and**

(2) **growing older is part of the natural cycle of life!**

10) I SPECIFICALLY ALSO REQUIRE YOUR ANSWERS THE FOLLOWING QUESTIONS, supported by peer reviewed science experimentally replicated by two independent scientists showing:

- a) How can they scientifically determine that someone has died of COVID-19 when they have suspended autopsies in the UK under emergency measures?
- b) SARS-COV-2 causes COVID-19.
- c) (RT)PCR and Lateral test can determine infectious carriers (asymptomatic).
- d) Accuracy of (RT)PCR and Lateral test (without (RT)PCR circular logical fallacy)
- e) The percentage reduction in risks of someone getting infected by COVID-19 when:
 - i) social distancing
 - ii) wearing a face covering / mask
 - iii) getting tested
 - iv) isolating
 - v) lockdown
- f) Where are all the bio-hazard waste bins for all these contagious masks?
- g) If COVID-19 is so contagious why does it need a swab so deep into the nose, surely a sterile tissue to blow your nose and cough into are more than enough?
- h) If non pharmaceutical interventions have got rid of the normal coronavirus strains of colds and flu', why do they not work against COVID-19?
- i) How have they scientifically determined the so-called 'variants' and therefore how can they scientifically prove that the existing vaccines can be effective against these variants?
- j) **And In regards experimental genetic therapy and or vaccines::**
 - i) By How much does each recommended brand reduce my risks of getting infected?
 - ii) What are the probabilities of each known side affect?
 - iii) Where can I see the published peer reviewed science of your above claims?

11) ADDITIONALLY, I DISPUTE YOUR BELIEVED ENFORCEMENT RIGHTS ARE LAWFUL
AS: You have claimed to be acting under the authority of legislation which is not law, but merely advice or guidance to the public, as further supported in [SCHEDULE 2 - LAWFUL AND LEGAL BASIS OF DISPUTE - CAUSE OF ACTION](#), summarised as follows:

- a) **FIRSTLY:** To see what Acts of Parliament, and legislation are, we go to [legislation.gov.uk](https://www.legislation.gov.uk/) website at <https://www.legislation.gov.uk/> website. It has a link to Understanding Legislation (<https://www.legislation.gov.uk/understanding-legislation>) which tells us there are only 2 types of legislation, and **Scrolling down we come to Case Law:** "Case law is the set of rulings from court judgements that set precedents for how the law has been interpreted and applied in certain cases. **Case law is not held on legislation.gov.uk.**"
- b) This admits, and hence it is settled as there is no dispute, that neither primary, nor secondary legislation is law, and you will not find any law on this website,
- c) **SECONDLY:** That Acts of Parliament are merely public guidance and advice, is admitted, and hence settled so is not in dispute, to be for governance to fulfil the monarch's first promise to **"...govern the peoples of [list of territories], according to their [the people's] respective laws and customs"** as affirmed in the last sentence of the [Crown and Parliament Recognition Act 1689](#) *'... and as such ought to be [= consent] reputed taken and obeyed by all the People of this Kingdome.'*
- d) **THIRDLY:** Acts of Parliament admit, and hence it is settled so not in dispute, who the advising and consenting authorised contracting parties are. thereby limiting their jurisdiction where they hold the force of law, on their title pages:
"Be it enacted by the **Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons**, in this present Parliament assembled, **and by the authority of the same**, as follows -"
- e) **FOURTHLY:** It is legislatively affirmed in [§49 of the Senior Court Act 1981](#) that the rules of equity prevail in the event of a conflict with the common law, and what is fair and just is determined by each individual's conscience, thereby admitting, and hence settled and not in dispute, that Acts of Parliament are not law.

12) FOR ANY OF YOUR ACTIONS TO HAVE THE FORCE OF LAWFUL YOU ARE REQUIRED TO PROVE YOUR CLAIM THAT:

- a) **FIRSTLY,** it must be Possible (the law cannot demand the impossible). and

iv) **'IRRATIONAL—AND SO UNLAWFUL'** if it were:

“so outrageous in its defiance of logic or of accepted moral standards that no sensible person who had applied his mind to the question to be decided could have arrived at it.”, and

- c) **THIRDLY,** it must be reasonable (tied in with rational) by considering the consequence, and hence impact, of chosen actions on others, including other creations.

I understand the atrocities of the holocaust in WWII resulted from people 'just following orders', as that was the only solution they saw at the time, to provide for themselves and their families.

I understand the threats and intimidation many are under, and that fear causes most not to stand up and do what most know and feel in their conscience to be right.

In future I undertake that I will always check the orders I receive or give will be lawful.

<https://www.dropbox.com/s/7gay1tor9yad2q3/ANNEXI-CV19-STATEMENTOFFACTSv20210303.pdf?dl=0>

And In any event, based upon this summary evidence:

- 1) To date, no negative control experiments (to determine single causative agent) have confirmed cell excretions, called different names in different theories, to have isolated a complete 'virus';
 - a) **Therefore, by impossibility, and by scientific admission**, 'viruses' are computer generated 'merged' strands of RNA of unknown source.
- 2) To date, no 'virus' experimentally has been shown to cause an 'infectious disease'.
- 3) Over 44 international government agencies and universities, including the UK Cabinet Office, House of Commons, House of Lords, Department of Health and Social Care and Public Health England have admitted, and hence it is settled so there is no dispute, they hold no records confirming:
 - a) SARS-CoV2 has no unique RNA identifiers, and
 - b) SARS-CoV-2 has never been isolated in the normal understanding of 'isolation', nor by the scientific gold standard of causation (Koch's Postulates), and
 - c) SARS-CoV2 does not cause COVID-19, and
 - d) COVID-19 causes no previously unknown harm.(FOI admissions can be downloaded <https://www.dropbox.com/s/geu6rctmo5j5wy0/FOIs.pdf?dl=0>)
- 4) **Further**, the Cabinet Office have admitted, and hence it is settled so there is no dispute, they merely acted upon an to date **undeclared source of advice** that: ***"Coronavirus Disease, or Covid-19, is caused by a new virus called SARS-CoV-2."*** [page 13 of the FOI's]
- 5) **Further**, House of Lords admitted, and hence it is settled so there is no dispute, they merely assumed:

"Evidence submitted to the inquiry starts from the premise (which so far as we know is uncontested) that the SARS-COV-2 virus causes the COVID-19 illness" [page 35 of FOI's]

- 6) **Hence, by impossibility**, (RT)PCR or any other RNA testing cannot indicate the presence of SARS-CoV-2, or any of its claimed mutations or "variants".
- 7) **Also by impossibility**, antigen or antibody tests cannot detect the presence of SARS-CoV-2, nor any of its claimed mutations or "variants", nor COVID-19.
- a) **Therefore**, making definition of cases by (RT)PCR or any other method irrational, and
 - b) **Therefore**, making asymptomatic carriers impossible, and
 - c) **Therefore**, making social distancing irrational, and
 - d) **Therefore**, making wearing of face covering irrational, and
 - e) **Therefore**, making isolation irrational, and
 - f) **Therefore**, making lockdowns irrational, and
 - g) **Therefore**, making the closure of any organisation irrational, and
 - h) **Therefore**, making the experimental gene therapy drug 'vaccine' our claimed saviour an impossibility, and
 - i) **Therefore**, making 'vaccine passports' irrational.
- 8) **Further**, these admissions affirm the best available science still stands unrebutted (humanities highest truth) to date is as it was in 1919, reaffirmed in 2007, and again in 2018.
- 9) **Further**, and in any event, during the press conference in answer to a question, on or around the 19/01/2021, Matt Hancock admitted, and hence it is settled, and not disputed, that it was unknown whether the experimental gene therapy drug 'vaccine' would:
- a) reduce the risk of getting infected by SARS-CoV2 or any of its mutations ('variants'), nor
 - b) if it would reduce the severity of the symptoms should you get it, nor
 - c) if it would increase your chance of getting other complications, and
 - d) due to the constant mutations there will be endless lockdowns by adding the new tier 4.

The Cabinet Office admitted they merely followed some undisclosed advice that SARS-COV-2 exists and causes COVID-19									
The House of Lords admitted they simply assumed SARS-COV-2 existed and that it caused COVID-19

11) FURTHER, TO DETERMINE PROPORTIONALITY, ANNEX I DETAILS:

- i) **Proportionality: actual harm to a reasonable person;** The harm caused only by COVID-19 as at 30/11/2020 was 4476, adding 10% to year end, deaths in England and Wales as a % of the total death is below 1%. Therefore is statistically insignificant, and to implement any public intervention is irrational!
- ii) **Proportionality: Vitamin D;** Extensive studies show vitamin D deficiency has been found present in 80% of cases , it is cheap, it is a lifestyle choice and should be the only non pharmaceutical interventions ("NPI") as it is neither reasonable, nor proportionate, nor lawful that one should gain by their own cause of action!
- iii) **Proportionality: comorbidities;** These are largely self inflicted, and that makes it solely the responsibility of the individual.
- iv) In any event, the non pharmaceutical interventions do not tackle these problems and hence are unreasonable, and unlawful, as no one can gain by their own causes of action!
- v) **Proportionality: old age; Figure 2 shows average remaining life years, favouring the elderly,** and for 11% of Covid related death to save 7.52% of the most vulnerable remaining life years cannot be reasonably supported on any logical or moral grounds.
Further unproven non pharmaceutical interventions do not even address this question!

And in any event based upon this summary of the law:

WHY DOES EVERYONE THINKS ACTS OF PARLIAMENT ARE LAW?

- 1) That is because some Acts of Parliament are codified common law, and that has created tremendous confusion, where even those who are meant to be upholding the rule of law have no idea or way of distinguishing the difference!
- 2) **FIRSTLY: To see what Acts of Parliament, and legislation are,** we go to [legislation.gov.uk](https://www.legislation.gov.uk) website at <https://www.legislation.gov.uk/> website. It has a link to Understanding Legislation (<https://www.legislation.gov.uk/understanding-legislation>) which tells us there are only 2 types of legislation:
 - a) **Primary Legislation: main laws** created by the legislative bodies of the UK, Scottish Parliament, Welsh Parliament and Northern Ireland Assembly, as well as other Primary legislation of Northern Ireland and Church of England Measures.
 - i) These are sometimes referred to as 'statutes', and the term 'statute book' refers to the whole of the 'statute law' currently in force.
 - ii) It also includes 'certain' (which means they also make their own private laws) Prerogative orders, either as 'Orders in Council' (by the monarch and the Privy Council) or 'Orders of Council' (made by the Lords of the Privy Council without the monarch)
 - b) **Secondary legislation is any instrument deriving its authority (right to act) from primary legislation** (known as conferred powers of offices, executable by the person filling that office).
 - c) **Scrolling down we come to Case Law:** "Case law is the set of rulings from court judgements that set precedents for how the law has been interpreted and applied in certain cases. **Case law is not held on legislation.gov.uk.**"

- d) This admits, and hence it is settled that neither primary, nor secondary legislation is law, and you will not find any law on this website,
 - e) Further, it has clarified many misconceptions of definitions, that are so interchangeably used, causing the great confusion as to what is law!
- 3) **SECONDLY:** That Acts of Parliament are merely public guidance and advice, is admitted, and hence settled so is not in dispute, to be for governance to fulfil the monarch's first promise to "...govern the peoples of [list of territories], according to their respective laws and customs" as affirmed in the last sentence of the [Crown and Parliament Recognition Act 1689](#)
'... and as such ought to be [= consent] reputed taken and obeyed by all the People of this Kingdome.'
- 4) **THIRDLY:** Acts of Parliament admit, and hence it is settled so not in dispute, who the advising and consenting authorised contracting parties are on their title pages:
"Be it enacted by the **Queen's most Excellent Majesty, by and with the advice and consent** of the **Lords Spiritual and Temporal, and Commons**, in this present Parliament assembled, **and by the authority of the same**, as follows -"
- 5) **FOURTHLY:** It is legislatively affirmed in [§49 of the Senior Court Act 1981](#) that the rules of equity prevail in the event of a conflict with the common law, and what is fair and just is determined by each individuals conscience,, thereby admitting, and hence settling, that Acts of Parliament are not law.
- 6) **FIFTHLY:** as the law cannot demand the impossible. Acts of Parliament, being the creations of fictions of law, by impossibility they cannot be law except law for their creators (jurisdiction),

13) **FIRSTLY**, it must be Possible (the law cannot demand the impossible).

14) **SECONDLY**, it must be rational:

- i) which is specifically is to control the madness of crowds,
- ii) which are based upon dogmatic beliefs under the **binding precedence** of

WHAT EXACTLY IS COMMON LAW?

The monarch's second promise: “..cause Law and Justice, in Mercy, to be executed in all your judgements?”

The rule of law: “...cause law and justice, in mercy...”

16) Our forefathers have handed us down knowledge to assist in settling disputes between humans, which are known as the rules of equity. By custom, established in the 11th century by Henry II after the Norman invasion, *stare decisis* was introduced to justify the land grab (let an existing decision of the settlement of a dispute stand and be applied to all).

The rule of law: "...to be executed in all your judgements?"

- 17) This custom was changed in the late 16th century by Lord Ellesmere adding 'conscience' (what we feel as to what is fair and just = Equity) must be applied to provide mercy in all judgements, thereby creating **the law of the land, the law in common to that society, or the common law created by the highest court decision, which is the binding precedence the lower courts must follow.**
- a) which for upholding the peace should be knowable to all, and
 - b) understandable to all, and
 - c) in any event, it is a legal obligation for the courts in every matter to provide as complete a resolution to any dispute, to avoid a multiplicity of suits, by applying the rules of equity which prevail in the event of a conflict with the existing binding precedence (common law), as legislatively affirmed in [§49 of the Senior Court Act 1981](#).
 - d) Hence conscience is what dictates the common law, and is always lawful excuse based upon a reasonable person.
 - e) Dispelling the long established myth as a fraudulent misrepresentation that **"This Court is not, as I have often said, a Court of conscience, but a Court of Law"**. Jessel, M.R., *In re National Funds Assurance Co. (1878)*, L. R. 10 C. D. 128
 - f) The purpose of the jury is to determine the law as well as the facts, as it is the people's laws and customs, and not those of the governing.

HOW IS THE COMMON LAW CREATED THEN AS THAT IS THE LAW OF THIS LAND?

The monarch's first promise: "...to govern the peoples of..., according to their respective laws and customs"

Defining Respective customs:

- 18) **MY MIND OWNS MY BODY**: as equity considers the beneficiary the true owner - the mind is the beneficiary of the body.

- i) We are born into customs of our parents, derived from their respective laws and customs.
- ii) The reason humans choose to live in society is in the belief that the application of logic and reason will reduce the ravages of the state of nature and thereby controlling the destructive human desires, and promoting the constructive desire, for the greater benefit of all.
- iii) Our forefathers have passed this logic and reason, (communal past knowledge to which everyone has an equal right) derived from their observations and experiences of life, easily verifiable by each of us as follows:

19) *It matters not what we believe, when we choose to step over the cliff edge, TRUTH WILL PREVAIL!*

a) Therefore, *TRUTH IS SOVEREIGN AND NOT A HUMAN'S BELIEFS.*

b) Hence, it is the search for truth as expressed in the conscience of a jury, that creates the common law, as it is the peoples respective laws and customs, and not of those governing!

c) Therefore, your personal **past** observations and experience = **state of mind = mens rea**, and

d) your personal present choices of **action = actus reus**,

e) determine your future actions and will be considered for mercy in judgement.

Defining Respective laws:

20) When personal observation and experience accurately predict outcome those become truths, thereby defining the 'law' (lawful, unlawful) as the highest truth, creating the lawful right to enforce by the creation of those truths, and the 'rule of law' being its enforcement. **Hence, the following are unalienable lawful human rights, enforceable by all, an obligation not to breach by all, and in any event are superior to any and all man created rules by any name or colour of law (fiction as opposed to observable or deducible truth):**

g) And back to where we started, the "law of the land" = common law precedence as established by Lord Ellesmere!

- 22) **Lawful excuse from existing binding precedence is equitably argued in the name of conscience, as legislatively affirmed** in [§49 of the Senior Court Act 1981](#) that the rules of equity prevail in the event of a conflict with the common law (the existing binding precedence) and what is fair and just is determined by each individual's conscience.
- 23) Applying the rules of equity to the binding precedence in the settlement of the dispute between *Furgeson v Wilson* [COURT OF APPEAL IN CHANCERY] [L R] 2 Ch App 77 HEARING-DATES: 5, 6, 7 November 1866 Cairns LJ said:
"What is the position of directors [office by any fictional name] of a public company?
[Organisation by any fictional name] They are merely agents [office by any fictional name] of a company [organisation by any fictional name]. The company [organisation by any fictional name] itself cannot act in its own person, for it has no person: it can only act through [office by any fictional name].
- 24) **Therefore, by impossibility and equitably:** Any fiction of law organisation can only act through the people filling its fiction of law offices, and therefore the fiction of law cannot act unlawfully by impossibility, **and hence its actors are always liable in person affirming**
'Equity acts in personum and will not suffer a wrong without a remedy'

- 25) A BREACH OF THE PEACE occurs when another trespasses upon our mind, or our body, without lawful excuse, once their needs for survival are satisfied.
